

# Research Project

Your assignment is to research the period of:

## ***The Divided Kingdom***

You need to be prepared to report back to the class and explain what was happening during this period of Israelite history.

Here are some sources you can use to find information:

### 1) The Text:

Information about this period is found in I Kings 12 - II Kings 17. You do not need to read every verse of every chapter; but you need to look over this for information about kings and conditions of the times.

### 2) Bible Dictionaries:

You can look up the names of any of the prophets who worked during this period and find information about what was happening during this time.

### 3) Commentaries:

Any commentaries on the prophets should have an introduction that will give you some background information about the times in which he worked.
